Preface

We are happy and proud to have been entrusted the sale of this exquisite collection documenting the early philately of Denmark, which has been built and formed from far away. Apart from being interested in the philately of his home country, Austria, Dr. Wolfgang Weigel has since far back had an interest also in the philately of the Scandinavian countries. This led to his decision in the early 1980s to start building this collection of classic Denmark.

Wolfgang quickly learnt the area and knew how to build the collection especially with regards to quality. This is witnessed in this auction catalogue throughout and some exceptional examples are the First Day Cover 1.4 1851, Lot # 2514 and the mixed franking with 2 RBS and 4 skilling, Lot # 2601.

In his search for items he rather soon came across our auctions and we got to know him as a very astute philatelist. It started with a pleasant client relation, which soon turned into friendship as well. Thus we followed his exhibition career closely and met him at various exhibitions around the world, where if not exhibiting, he often took part as a member of the jury.

It pleased us immensely when he reached his well-deserved goal in Paris in 2012 and was awarded a Large Gold Medal.

Thank you for your confidence Wolfgang and good luck with your future career within philately!

Important Information

Unused Denmark 1851 – 1862 * & **

Through debates in various philatelic press, it has been made clear that due to the hard and insoluble gum used on early Danish stamps during the years 1851 – 1862 (Facit Nos 1-8), light hinges or traces of hinges can sometimes be removed by using only water. This might not leave any trace of the hinge and might not in any way change the consistency or structure of the original gum.

Established experts are unified in the opinion that **in many cases it is impossible to determine if a stamp has previously been hinged or not**, when showing no marks of any hinge.

The conclusion we have made regarding our descriptions from now on, for Danish unused stamps **Facit Nos 1-8, is as follows:**

1. **We will no longer use the terms “NH” or “never hinged”.**
2. **We will still use the signs “*” for hinged stamps with original gum.**
3. **and “**” for stamps with original gum with no visible trace of hinge(s) and described as such.**

We believe that most specialized experts also will use this “modus operandi” for these issues.

At the same time we wish to refer to the Swedish Philatelic Federation’s Expert Advisory Group (Expertrådet). It has published norms of allowed methods for light cleaning of stamps and covers. These norms have been adopted also by other Nordic Federations. Reversing of light oxidation, sometimes caused by use of modern plastic, without leaving any traces is also an allowed method accepted among national and international experts.

Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.

Introduction

By
Lars Peter Svendsen
President
Kjøbenhavns Philatelist Klub

Dr. Wolfgang Weigel was born in Vienna on 9 March 1943. He is a Doctor of Law and today a retired customer relationship manager in banking. He is still today living in Vienna with his wife Maria and together they have two children as well as grandchildren.

He has been a stamp collector since childhood and an exhibitor since 1985. He has several collection areas, but the main collection area has since 1985 been Denmark - The Classic Issues 1851-64. I have known Wolfgang since WIPA 2000. I was already then impressed by an Austrian collecting Denmark at that level.

It is always a challenge to collect a philatelic country or area when you are not a native citizen and have lived in that country during your childhood. You don't have a natural and basic historical and geographical knowledge and have to learn everything from the ground up. The postal laws and philatelic literature of the area he is collecting is in Danish and Wolfgang told me many years ago that he therefore had to teach himself to read Danish in order to fill the collection with all the knowledge he is showing, a task which is most admirable and impressive. Another thing which is special when collecting another classic area than your own home country is, that it is not possible to find the right material in the area you are living, but you have to go abroad to find it by creating the right network of dealers and friends. Wolfgang has also handled this challenge by acquiring hand picked material in the best quality for his exhibit. The exhibit "Denmark - The Classic Issues 1851-64" is on a level you don't often see and especially not when built up by a non-Danish citizen.

Wolfgang Weigel at left together with jury colleagues Rolf-Dieter Jaretzky, myself and André Decre during the work at PORTUGAL 2010

Wolfgang Weigel's way of showing his exhibit is the way I prefer to see for traditional philately. His treatment keeps the stamps in focus by documenting the production of the stamps with proofs, printings, plating, plate errors, margin pieces and unused and used units and blocks. The documentation of the production is supplied with many rare covers showing different ways of usage of the stamps produced.

Wolfgang Weigel is an accredited F.I.P. Juror in Traditional Philately and has been Bureau member of the F.I.P. Traditional Philately Commission where he today is the delegate for the Austrian Federation, so we often meet each other at International exhibitions all over the world. We have been judging together once, at the F.I.P. exhibition in Portugal 2010.

The Briefmarken-Sammler-Verein "Wien" has always been Wolfgang's preferred local club and he has been its Chairman for many years and still is. He is also member of the oldest and most important philatelic society in Austria, the "Philatelistenclub Vindobona of 1880". Internationally he is a fellow of the Royal Philatelic Society London. He is of course also a member of KPK - Kjøbenhavns Philatelist Klub and is thereby closely following the development of philately in Denmark.

He is a member of the board of the Austrian Philatelic Federation (VÖPh), where he is responsible for philatelic questions.

I wish Wolfgang all the best of luck with the sale of his wonderful exhibit.

“Postiljonen Horses”

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.
Exception: Only 20% commission, excl. Swedish V.A.T., only for
 - a. Export to countries outside of EU.
 - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

Below Euro 500,-	Euro 10,-
500,-–2000,-	50,-
above 2000,-	ca 5%

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone or fax. The bidder is personally responsible for any and all his purchases in the auction.
 - 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
 - 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of Euro 10,-. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
 - 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
 - 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
 - 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
 - 9, Swedish law is applicable.
- Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.

Vid bud för annans räkning ansvarar budgivaren för att försäljningsvillkoren uppfylles, som vore det eget bud. Budgivaren är också ansvarig för av honom gjorda fel i auktionsuppdraget. Likaså vid oбекräftade telefon- och faxbud svarar budgivaren för ev. fel och missuppfattningar.
4. Auktionsuppdrag behandlas så omsorgsfullt som möjligt, dock utan några andra åtaganden från auktionärens sida. Auktionären äger rätt att ej godtaga bud, samt att dra tillbaka, omgruppera eller dela objekt. Auktionären har också rätt att avvisa personer från auktionen och avböja bud utan att ange skäl härför. Han förbehåller sig rätten att vid missförstånd eller meningsskiljaktigheter utlysa ny budgivning. Vid två eller flera lika bud på samma objekt från uppdragsgivare, tillfaller objektet den som först inkommit med bud. Vid godkänd reklamation återfår köparen auktionspris plus provision och eventuell moms. Rântegottgörelse kan ej påräknas.
7. Begäran om förlängd reklamationstid för att köparen önskar sända objekt för expertundersökning, måste ske omgående och inom 8 dagar efter mottagandet av objektet. Experten måste godkännas av auktionären. Auktionären kan vid reklamation kräva intyg från en opartisk, välkänd expert. Objekt med äkthetsintyg kan, om auktionären så anser befogat, och om det ursprungliga intyget är utfärdat av en godkänd expert, endast returneras om minst två opartiska och välkända experter har en avvikande mening. Defekter synliga på foto (klippning, tandning, centrerung, stämpling etc.) kan inte ligga till grund för reklamation. Reklamation kan ej heller ske om objekt eller märke förändrats genom någon slags behandling. Objekt innehållande fler än 3 märken kan inte returneras på grund av smärre defekter på enstaka märke. Stora objekt kan innehålla både stämplade och ostämplade märken. Samlingar, partier, massvara, kilovara etc., säljes i befintligt skick och kan inte returneras. En differens på 10–20% måste kunna accepteras av köparen.
