### *Did you know?*

Not until this millennium it was discovered that Aalborg had a mute cancellation for the first Danish issue, with significant differences from the one used in Copenhagen. Through studies of covers with 4 RBS it was found out that in Aalborg the mute cancellation had a larger dot and a thinner inner circle. Quite incredible that this fact eluded generations of astute philatelists and took more than 150 years to be discovered.

The 2 RBS stamp, which apart from Copenhagen was delivered only to Aalborg (April 16, 1852) and Nørresundby, is extremely rare with this cancellation as the possible use is limited to a total of ca 6 months and for the Thiele printing ca 2-3 months only. The copy offered here is to date the only one known of this printing.

## Preface

With an extremely intensive year behind us, all members of the "Postiljonen Team" have been recovering thanks to an unusually long time off in connection with the Christmas Holidays. A pleasant few weeks where we spent a lot of time together with our families and got plenty of inspiration for the upcoming philatelic season!

Once again we have been entrusted, from different consigners, an amazing section Denmark with items of the highest rarity, quality and beauty. Again an exceptional offer of the first issue 2 & 4 RBS followed by a very comprehensive specialized study collection of the blue 2 skilling of 1855 broken up into nearly 40 lots. It is a life-time philatelic work representing a unique study of the plating of this stamp and its use. We also suggest that you read the incredible story about the Aalborg mute cancellation on page two (inside cover).

The other Nordic countries, especially Finland & Norway are also worth mentioning with several exceptional rarities and exciting lots from old estates. The Swedish classic section is as always well represented with rare and beautiful single stamps as well as multiples and covers of a high standard. A nice item and a fun story is the find of the 24 öre Circle Type in a block of five from an old estate! Unusual sections this time are also the offers of full sheets, coil rolls, booklets and bundles in a condition and state that is almost never seen.

Leaving Scandinavia and looking at the rest of the world, we are proud to present a great variety of interesting items from different areas around the globe. Well worth mentioning are the two fantastic earliest franked covers to Denmark from Great Britain, sent on the same day – June 22nd, 1841! The Italian States are repre-

ented with a beautiful Tête-Bêche # 1 from the Papal States on a cover, a wonderful part of a cover with mixed Sardinia & Naples and a beautiful cover 1861 with a Sardinia 40 centesimi bisect. Several large consignments from estates including British Commonwealth and World Wide collections & lots will surprise and satisfy many of our customers.

As Hotel Savoy is still renovating their conference centre we are not able to hold our auction there this time either. But we have a good solution to the problem as our own office building, Öresundshuset, is offering a brand new conference room on the ground floor. We think this will be a good and convenient solution for everyone.

Welcome!

## Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

**To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.**

## “Postiljonen Horses”

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

2 RBS Thiele plate II No. 79 type 5 with MUTE CANCELLATION with LARGER DOT AND THINNER INNER CIRCLE different from the mute cancel used in Copenhagen. This canceller was in use only during the short period from when the 2 RBS was announced for sale in Aalborg on April 26th 1852 until it was replaced by the numeral "4" canceller in October 1852. As 2 RBS Thiele was delivered August 1852 this combination Thiele/mute canc. in Aalborg was theoretically possible for the limited period August through October 1852. Certs Kaiser and Møller.

# Old "Massware"

The following 9 lots are offered on behalf of an estate going back about 40 years. It has not been touched since and we believe that most of it was bundled much earlier during a lifetime of collecting. It was bundled by someone with knowledge, often perforations and different watermarks have been defined. Sometimes there are notes on the packets "genom-gånget" (gone through), we believe this is for control of quality and/or watermarks when bundling. Some later bundles (from 1930s) with this notation have been opened by us and showed reasonably good numbers (sometimes very high %) of unusual cancellations as well as some rare ones. Also superb and excellent copies were found.

There are two other duplicate stocks from the same estate in this auction, one with Circle Type in two boxes and one with Oscar II – 1960s in 8 boxes with smaller quantities in envelopes. It is interesting to see that in these lots there are many very beautiful cancellations. Also sometimes when there is a note "Lyx" (excellent), it seems to be the centering that determined the quality. This indicates that the beauty of the cancellation was not so important for this collector, which was normal at that time.

There should be good chances for finding beautiful cancellations and maybe also rare ones.

We recommend inspection, but bundles and closed envelopes may not be opened as part of the value lies in the originality.

# Earliest Mail to Denmark

On the same day, June 22, 1841 two letters were mailed to Denmark, one from Liverpool sent to Copenhagen and another one from Newcastle-on-Tyne to Corsør. Luckily they were franked differently and thereby forming a phenomenal philatelic matching pair of the first two covers with stamps sent to Denmark, once an unparalleled prelude in an internationally Grand Prix awarded postal history collection.

One cover carries four copies of two pence in the scarce deep full blue shade and the other one is a rarity also thanks to being franked with eight copies of one penny red from plate 1b, making it the largest recorded franking with one penny black plates! They were both sent by ship from Hull and cancelled "HULL SHIPLETTER".

There was once an even earlier cover, though in very bad shape and with heavily repaired stamps. However, at an occasion when all the three letters were in the same hands, that one was destroyed and burnt, which at the time was witnessed and documented.

Photo and descriptions on the following pages.

## Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.  
Exception: Only 20% commission, excl. Swedish V.A.T., only for  
a. Export to countries outside of EU.  
b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

Below Euro 500,-	Euro 10,-
500,-2000,-	50,-
above 2000,-	ca 5%

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone or fax. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of Euro 10,-. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer.
