Preface

“Time flies” is an expression that most of us use occasionally. For us it is very relevant right now as there have already gone ten years since we moved into Öresunds-huset, which is one of the reasons for having decided this time to arrange our two spring auctions in our office building.

Our move ten years ago in 2006 coincided with the world stamp exhibition Washington 2006. As most of you probably already know it is a long tradition to arrange international stamp exhibitions every tenth year in the US, it started in New York 1913. The latest exhibition in New York was FIPEX 1956, but now it is finally time again – NY2016, May 28 - June 4 2016!

For all you exhibitors who have been accepted to exhibit in New York our upcoming auctions are excellent opportunities to complement and enhance your collections. For the Iceland collectors the Indriði Pálsson Collection of Classic Iceland is “the chance of a lifetime”! Among several favorites it would be malpractice not to mention the two skilling covers, two of the very best in existence! We recommend everyone to study this collection in the separate auction catalogue #211, even if you do not collect Iceland.

Due to our policy of high standard we can offer exhibition items from most areas, especially worth mentioning this time are the Danish West Indies and Finland but also countries like France, Schleswig-Holstein, the German Reich etc.

If you prefer to dig into old dealer stocks we suggest you to look at the 62 lots from a large stock with a very interesting history. At the end of World War II it was put into sealed boxes and transported to safety. Now seventy years later we are offering it country by country, mostly classic stamps from the 19th century but also semi modern up to ca 1945.

Please enjoy your studying of our two auction catalogues this time.

Auction #211

19 March at 15.00

It is with great pleasure we introduce the first auction of The Indriði Pálsson Large Gold Medal Collection of Classic Iceland.

This collection includes some of the very best skilling covers in existence as well as many other exceptional items of outstanding quality.

Excellence in Philately!

Study Indriði Pálsson's famous collection "Classic Iceland until 1902 regular Postage Stamps, Postmarks and Covers" in its complete and intact state.

The beautiful book, with the entire collection published, will be released after the auction on the 19th of March, but already now you can pre-order it from our website.

The book is a fantastic guide to the classic Iceland collecting area and with an edition of only 150 numbered copies it will also be a true collector's item.

**Pre-order the book at our website www.postiljonen.com
Price SEK 550:- or € 60 + postage**

Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.

“Postiljonen Horses”

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

The Danish West Indies

A fantastic collection of Danish West Indies is being broken up. It is a traditional collection that has been systematically built in the past 50 years or so with emphasis on varieties and isolated frames (i.e. one, two or more clichés in a sheet different from the majority of the clichés, normal or inverted) of the bicoloured issues.

The collection also contains the less expensive, but often equally rare oval- and frame cliché flaws as well as inverted watermarks. However, these varieties are to a large extent left in the fantastic remainder of the collection offered as lot No. 228.

It also has a unique section of different postmarks, domestic as well as many rare foreign ones, these are with few exceptions offered in its entirety as lot No. 230.

This was one of the major collections, if not the best one, in its field and such a vast offer of varieties has not been presented for a very long time. We hope you will enjoy studying it.

The most spectacular cover of this issue with 32 penni in a full vertical strip of 10 taken from a double sheet with the gutter in the middle. *The strip is proving the fact of the print being done in double sheets.* The letter at the 10-fold rate was sent by ship from Åbo in Finland to Westerås in Sweden and the reason for the high franking was the heavy content consisting of shares in the Åminne Zink Aktiebolag for 10.000 marks. It is remarkable that the sender or the postal clerk has taken out a full strip from a double sheet and then also succeeded to put it on the envelope without any damage. Afterwards the post in Åbo was helpful and used beautiful cork cancellations giving it also a wonderful appearance. One of the greatest Finnish rarities that has for many decades been tucked away and according to our knowledge never before been offered on the open market.

Old Estate Dealer Stock

We are happy to offer the below 62 lots from a large stock with a fascinating and enthralling story. At the end of World War II in Germany this stock was in a certain hurry, we believe, taken out of stock books and put into envelopes to save space. It was put into sealed boxes and transported to safety. They were probably opened in the 1950s for some time, but then locked up again and have remained untouched for over 50 years.

When lotting the stock, mostly country by country as it was sorted, we have seen great variety in most areas, but also as was normal at the time; mixed quality as well as repairs, especially among scarce and rare stamps. To a large extent it consists of classic stamps from the 19th century, but also much semi modern up to ca 1945. We have seen just a little from the 1950s in a few lots but nothing later. With the exception of some single stamps and specialized lots offered under the country headlines in the general sale, everything from these boxes is offered here as it was received by us.

A lot of pictures have been taken by us, as you can see here in the catalogue, but you will find much more on our website. The purpose is to give an idea about the contents and how it was and is now arranged. When put on cards or in plastic it has been done by us to give a better overview and facilitate the viewing.

Viewing is absolutely recommended!

Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.
Exception: Only 20% commission, excl. Swedish V.A.T., only for
 - a. Export to countries outside of EU.
 - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

Below Euro 500,-	Euro 10,-
500,---2000,-	50,-
above 2000,-	ca 5%

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone or fax. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of Euro 10,-. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
- 9, Swedish law is applicable.

Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.

Vid bud för annans räkning ansvarar budgivaren för att försäljningsvillkoren uppfylles, som vore det eget bud. Budgivaren är också ansvarig för av honom gjorda fel i auktionsuppdraget. Likaså vid oberoende telefon- och faxbud svarar budgivaren för ev. fel och missuppfattningar.
 4. Auktionsuppdrag behandlas så omsorgsfullt som möjligt, dock utan några andra åtaganden från auktionärens sida. Auktionären äger rätt att ej godtaga bud, samt att dra tillbaka, omgruppera eller dela objekt. Auktionären har också rätt att avvisa personer från auktionen och avböja bud utan att ange skäl härför. Han förbehåller sig rätten att vid missförstånd eller meningsskiljaktigheter utlysa ny budgivning. Vid två eller flera lika bud på samma objekt från uppdragsgivare, tillfaller objektet den som först inkommit med bud. Vid godkänd reklamation återfår köparen auktionspris plus provision och eventuell moms. Räknetogttgörelse kan ej påräknas.
 7. Begäran om förlängd reklamationstid för att köparen önskar sända objekt för expertundersökning, måste ske omgående och inom 8 dagar efter mottagandet av objektet. Experten måste godkännas av auktionären. Auktionären kan vid reklamation kräva intyg från en opartisk, välkänd expert. Objekt med äkthetsintyg kan, om auktionären så anser befogat, och om det ursprungliga intyget är utfärdat av en godkänd expert, endast returneras om minst två opartiska och välkända experter har en avvikande mening. Defekter synliga på foto (klippning, tandning, centring, stämpling etc.) kan inte ligga till grund för reklamation. Reklamation kan ej heller ske om objekt eller märke förändrats genom någon slags behandling. Objekt innehållande fler än 3 märken kan inte returneras på grund av smärre defekter på enstaka märke. Stora objekt kan innehålla både stämplade och ostämplade märken. Samlingar, partier, massvara, kilovara etc., säljes i befintligt skick och kan inte returneras. En differens på 10-20% måste kunna accepteras av köparen.
