*29-30 September 2017*

*Iceland - Cover with many rare Í GILDI overprints  
including a unique 10 aur violet-carmine*

### *Did you know?*

When the first stamps with the Danish King, Christian IX were issued in Iceland in 1902 the old aurar values were invalidated. However, this was changed shortly afterwards allowing them to be used throughout 1903 if overprinted Í GILDI '02-'03 (valid). Private persons and businesses were allowed to hand in sheets and later even half sheets of stamps for overprinting. It is known that sometimes mixed blocks and stamps mounted on paper were accepted for overprinting as sheets or half sheets.

That is the reason why some values are known with the Í GILDI overprint in small numbers, in some cases surely far fewer than 50 copies, which was the size of the half sheet.

Most probably this fantastic cover offered now was franked by someone who had one or more sheets made up of remainders of various values including some from printings that were since long sold out at the Post. This would explain the presence of the unique 10 aur as well as some of the other very rare stamps.

## Preface

The power of the weather continues to surprise and live its own life. After a most doubtful summer with rain or cloudy skies almost every two days, the water never got warm and therefore no swimming in the sea this year. However the situation has been totally different in the southern part of Europe, where one of us co-workers lives, with a heat wave that has even caused deaths. But reading in a financial newsletter today the housing market in Stockholm is really hot, actually the hottest and most expensive in the world, having doubled in ten years!

Now the question is whether the Swedish stamp market is just as hot? Probably not, but it has been one of the strongest markets in our business for several years now. Having been able to offer high level classic philatelic items for the past decade, often of the highest quality, we continue to do so.

The variation is wide, from single prephilatelic items to collections & lots including many boxes. In between there are numerous unique rarities, often suitable for exhibiting. We would like to mention the unique mixed franking with 4 Skilling Banco & 12 öre Coat of Arms as well as the many items graded 5, 5, 5. One of the most spectacular items is the set of 55 & 80 öre in absolutely perfect quality and grade. When did you last see an 80 öre like this one?

The auction starts with Denmark and areas; in addition to many classic rarities there is a very nice section of Postal History from Bornholm. Once again we have an extremely important section of Iceland including a skilling cover, this one with an 8 skilling stamp sent to Denmark.

We are also very proud to have been entrusted the sale of "Interrupted mail of Scandinavia", from a Gold Medal Collection formed by the enthusiastic exhibitor Hallvard Slettebø from Norway, a nice section ending the first auction day. Saturday morning starts with the Non-Scandinavian countries from A-Z including rare single items, collections & mixed lots. Well worth mentioning this time is the comprehensive Russia & Soviet Union sections as well as a strong offer of quality items from the Danish related German area Schleswig-Holstein.

Similar to our two previous auctions we are now happy to present "The Gummesson Grand prix d'Honneur Collection of Classic Finland, Part 3", in a separate catalogue # 219. If you have not received it, please let us know and we will send you a copy.

We wish you all most welcome to any of our viewings and of course especially to the auction itself.

## Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

**To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.**

## *Postiljonen Main Commercial Partner in cooperation with Spink & Philasearch*

---

*Postiljonen AB will celebrate its 50th anniversary in 2018 by being Main Commercial Partner to the national exhibition MALMEX 2018. The supporting of the exhibition is part of a larger partner agreement which in total includes three large philatelic events to take place in Postiljonen's home city of Malmö during the next few years.*

Please have a look at:

## *“Postiljonen Horses”*

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

## *Important Information*

### **Unused Denmark 1851 – 1862 \* & \*\***

Through debates in various philatelic press, it has been made clear that due to the hard and insoluble gum used on early Danish stamps during the years 1851 – 1862 (Facit Nos 1-8), light hinges or traces of hinges can sometimes be removed by using only water. This might not leave any trace of the hinge and might not in any way change the consistency or structure of the original gum.

Established experts are unified in the opinion that **in many cases it is impossible to determine if a stamp has previously been hinged or not**, when showing no marks of any hinge.

The conclusion we have made regarding our descriptions from now on, for Danish unused stamps **Facit Nos 1-8, is as follows:**

1. **We will no longer use the terms “NH” or “never hinged”.**
2. **We will still use the signs “\*” for hinged stamps with original gum.**
3. **and “\*\*” for stamps with original gum with no visible trace of hinge(s) and described as such.**

We believe that most specialized experts also will use this “modus operandi” for these issues.

At the same time we wish to refer to the Swedish Philatelic Federation’s Expert Advisory Group (Expertrådet). It has published norms of allowed methods for light cleaning of stamps and covers. These norms have been adopted also by other Nordic Federations. Reversing of light oxidation, sometimes caused by use of modern plastic, without leaving any traces is also an allowed method accepted among national and international experts.

## The Hjalti Jóhannesson Gold Medal Collection

During our March auction this year we started breaking down the exceptional postal history collection of Icelandic cancellations of Mr. Hjalti Jóhannesson, which was awarded Gold Medal at Nordia 2009 in Iceland.

We now continue with a selection of better cancellations from his collection starting in the skilling period up to ca 1910 including many good covers. The highlight of his collection is the beautiful cover to Copenhagen franked with a single 8 skilling. This cover has been serving philately well for many decades, having been part of three Large Gold Medal collections abroad before being brought back to Iceland by Hjalti.

## Þrír & Í GILDI Provisionals

As a part of this auction we are happy to offer a collection built during many years by a collector living outside of Scandinavia. It covers a very long period, starting with the first issue represented by several very special items continuing all the way to semi modern issues including a beautiful Hopflug Itala cover and many other rare items. However, the collection is particularly strong in the Provisional Issues of 1897 & 1902. It is a great pleasure for us to offer such a wide variety in these issues, with rare and unusual printings, shades, combination blocks, varieties in so many different fashions, covers, multiples etc. Among these so many rare and even unique items including items not earlier known or perhaps forgotten about among most collectors and specialists.

Hopefully you will all enjoy a close study of these items, we are convinced that the specialists will.

# Interrupted mail of Scandinavia

## Gold Medal Collection of Hallvard Slettebø

We are very happy to have been entrusted the major part of this exceptional postal history collection of interrupted mail sent within, to or from Denmark, Norway and Sweden. Numerous interesting items receiving special treatment by the post as they were damaged and/or delayed due to aircraft accidents, maritime misery, train trouble, car crashes, fires, theft and a multitude of other postal service problems. Hallvard Slettebø started this collection in 2001 and exhibited it for the first time locally in 2007. Exhibition highlights were Gold medal (93p) with special prize at the FEPA exhibition IBRA '09, and Gold (91p) at the FIP show Philatapei 2016. The items are offered here by sections as they were exhibited and on our website you can study the original exhibition pages with the complete description of each item. In each section there are a number of interesting covers offered in one lot as selections/collections, all items still on their exhibition pages. The starting prices are very modest and we recommend careful inspections of those lots. The main areas are obviously Denmark, Sweden and Norway, but as you will find there are also items relating to numerous other countries of the world. We hope you will enjoy studying it all, not least from the historical point of view with a lot of very interesting stories.

The main sections are:

1. **Aircraft Accidents** lot # 545-579
2. **Maritime Disasters** lot # 580-597
3. **Incidents on Land** lot # 598-610

Due to the nature of this collecting area, most of the items are damaged due to their adventures and troublesome journeys. These damages can obviously not be used as any reason for reclamation.

The rarity statements are based on the exhibitor's recordings if no other source is given.

Main sources for information:

- Henri L. Nierinck: "Courrier Recuperee – Recovered Mail"
- Norman Hoggarth & Robin Gwynn: "Maritime Disaster Mail" (H&G)
- Robin Gwynn & Norman Hoggarth: "Railway Disaster Mail" (G&H)
- John Thiesen: "Nordic Air Crash Mail" [www.crashmail.dk](http://www.crashmail.dk)
- Svensk olyckspost (Swedish Wreck & Crash Mail) [www.olyckspost.se](http://www.olyckspost.se)

The three first ones will be available at the viewing in Malmö and as for the last two we refer to the websites.

Through historical facts it can be determined that the year must be between 1634 and 1636. Probably 1636 and thus in any case earlier than the other equally fantastic, almost identical cover, the first lot in the first Gummesson auction dated 14 November 1636. With one difference, that one was endorsed "Lefvereras i Krigsrätten" (to be delivered in the Court of War), while this one "Lefvereras på Admiralitetet" (to be delivered at the Admiralty). Please, see enclosed article (in Swedish) from the Åland magazine, Luppen on our website.

## Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.  
Exception: Only 20% commission, excl. Swedish V.A.T., only for
  - a. Export to countries outside of EU.
  - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

Below Euro 500,-	Euro 10,-
500,---2000,-	50,-
above 2000,-	ca 5%

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone or fax. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of Euro 10,-. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
- 9, Swedish law is applicable.

Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.
