## Preface

After five fantastic specialized auctions, we are happy to now bring up the two last important sections that were part of the legendary Gummesson Grand Prix winning collection of 20 frames exhibited in Melusina, Luxembourg 1963.

One is the extensive specialized collection of town cancellations in alphabetical order, which was kept in 13 albums. You will find small places which are almost never on the market and a great number of beautiful items in outstanding quality. From most places there are also exceptional small selections still on the album pages.

The other is the specialized collection of Åland Islands, which is an exciting area with numerous specialized items of a varied nature, often extremely difficult to find and extant in very small numbers.

This auction is “topped” by some spectacular rarities, which we believe will speak for themselves and they are among the absolute prime items of Finnish classic philately. At the end you will also find some interesting lots of unusual reprints as well as other miscellaneous items and lots.

As an extra service for our Finnish clients we will of course, as usual, also arrange a special viewing in

Helsinki. But please note that this time it will take place at Radisson Blu Plaza Hotel! For more information please see page 5.

We hope to have the pleasure of welcoming to Malmö as before, a great crowd of Finland collectors from their home country as well as international specialists.

Welcome!

## Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

**To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.**

## Extra scans on the web!

For every auction we publish thousands of extra scans on our website [www.postiljonen.com](http://www.postiljonen.com) including more or less all certificates of single items and a very large number of collections and lots are scanned in their entirety, further many others with selected pages/scans.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

### More scans at cost

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

Due to time restrictions and limited availability of the lots due to ongoing viewings, we must restrict this service of making further scans on individual requests. In the cases time allows us to supply more scans we will charge for the costs of **€ 10 for each request (maximum 10 scans or photos)**

If more than 10 scans are requested, € 1 per scan will be added. **Must be paid beforehand by credit card, please go to "Payments" on our website.**

## *“Postiljonen Horses”*

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

# Town Postmarks

The Gummesson collection of Town Postmarks consisted of 13 albums from A to Å. This extensive collection was exhibited outside of competition by itself a few times by Rolf Gummesson and it was of course in large part also represented in Melusina in 1963.

Among the almost 250 lots you will see the large extent of completeness including numerous rare items, often in exceptional quality and beauty.

# Åland Islands

A very special and interesting part of the Gummesson collection was the impressive section of Åland Islands, which can be considered an exhibition collection in itself. The last time it was exhibited was on invitation at an exhibition in Åland in the year 2000, when Per Gummesson brought it by himself on his own sailboat. Needless to say a large part of this exciting collection was also shown in Melusina in 1963.
