International Auction # 226

Malmö

27-28 September 2019

Did you know?

Besides the regular army, Sweden also had a civil defence called Landstormen. During the First World War the “H.K.H Kronprinsessans fond” (the crown princess’ fund) started raising money for new uniforms. With the help of the well-known stamp dealer Harry Wennberg the first stamps with charity surcharge in favour of “Landstormen” were issued in 1916.

No booklets were ordered or produced by the Swedish post, however a small number were manufactured anyway by the charity organization and are extremely rare today and missing in most collections of Swedish booklets.

Preface

In our last preface we expressed some concern for the risk of a hard Brexit during our spring auction, luckily it never happened! We are happy to continue our business as usual with our clients in Great Britain. However, other worrying things happen all the time in the world with e.g. a constant threat of new international customs duties which makes the world's stock markets go up and down like a yo-yo.

Fortunately it affects us very little as stamp collecting is a genuine hobby in which you might have been active since childhood. If you continued after your teens, marriage etc. and became an exhibitor, perhaps you must have "that" item you have been hunting for decades, so it's now or never! We think that you will find a lot of these "must have items" in this auction catalogue.

Traditionally the auction starts on the Friday afternoon with Denmark followed by the other Scandinavian countries. The collector of classic Denmark who is planning to build up an exhibit really has the chance to catch some excellent items this time. In the Norwegian section we are proud to have been entrusted Gregory Frantz Gold Medal Collection of Spitzbergen. Iceland is very strong as always with many nice items at an affordable price level.

After six auctions with the Gummesson Grand Prix d'Honneur Collection of Finland it feels somewhat empty, we as well as our clients really enjoyed it as long as it lasted. But our Finnish friends do not have to leave empty handed as we are happy to offer exceptional first issue Oval rarities and part 2 of the outstanding "Viola Collection" with viewings in Helsinki as well as in Hämeenlinna.

Day two of our auction starts with the non-Scandinavian countries including e.g. a strong section German Reich, the famous Schleswig-Holstein Burrus Pair, a fantastic collection of various South African areas as well as many other interesting items from all over the world. The collector of Sweden will as usual find a lot of interesting items at different price levels. Please, pay special attention to the 3 Skilling Banco items this time including the two extraordinary covers.

We hope that none of you have missed The Postiljonen Numismatic Auction of mainly gold coins that will take place on Thursday the 26th of September. It is presented in a separate catalogue and if you have not received it, please contact us and we will be happy to send it to you.

If you don't have the chance to come to Malmö for our viewing and auction, please take a look in our calendar at page 6 to find out where it is possible to meet us.

"Postiljonen Horses"

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

Andreas Lindkvist

Since September 2018 we have had a new philatelist and describer colleague in our team – **Andreas Lindkvist**. His main task is to acquire material for auction or direct purchase as well as lotting and preparing auction lots.

Andreas was born in a smaller municipality in southern Sweden, but for the last 20 years he has been living in the center of Malmö. He is 43 years old and has been married to Dessy for the past 11 years, they have no children. His leisure-time activities are cooking, working out at the gym and taking long walks in the forest. Another favourite activity is visiting Ribersborgs Kallbadhus (open-air bath) where he after a sauna enjoys jumping into the sea all year round!

As most of today's colleagues in our business he has been collecting stamps since childhood. Since the 1980s he has been a member of Eslövs Frimärks & Vykortsklubb and today he is also a board member. We have received the best possible recommendations from his association.

His main collection area is Sweden 1855-1872, but also Swedish Official Stamps, classic Russia etc. During the year he has worked with us we have noticed how quickly he's able to learn other philatelic areas. "To have one's hobby as a profession is a luxury that few people are able to enjoy" is his own words. Already he has also established a good and serious relationship with our clients and is well appreciated.

Andreas – we welcome you to our team and hope that we will continue to get on well and that you will stay with us for many years to come!

Obituary

Johnny Pernerfors PHM
3 januari 1962
5 april 2019

It was with great sadness that we received news of the passing of our good friend Johnny Pernerfors last April. Johnny's generous contribution to Icelandic philately in particular will always be remembered. It's safe to say that his collecting and associating with other like-minded collectors was his main passion in life. It was through his role as chairman of the Iceland collector's club in Gothenburg that we came to work closely with Johnny, including his untiring contribution to the Facit catalogue.

Johnny always supported our auctions in various ways and was always present with very few exceptions. As an Honorary Postiljon you could say that he was often the life of the evening at the post-auction dinner as he was always so positive and happy.

It will be extremely difficult to compensate for Johnny's role within Icelandic philately at large and there will be an enormous void from the philatelic as well as the social side.

Hasse Brockenhuus von Löwenhielm PHM
24 juni 1938
13 juni 2019

Hasse's contribution to organized philately in Sweden and internationally is well-known to most collectors in the Nordic countries and elsewhere. For decades he was a highly qualified and appreciated judge as well as a very successful exhibitor.

For us at Postiljonen he was considered a very dear and appreciated friend. He led several of our early philatelic seminars and of course became an Honorary Postiljon many years ago.

Hasse was also one of a few founders of the club "Generalerna", a small but exclusive society, who all collect The World before the year 1900, each one in an original album printed in the 19th century.

There will be a large void after Hasse, strongly felt besides by his wife, daughter and family also in so many philatelic circles.

We will miss you!

Meet Postiljonen in Copenhagen...

"Kjøbenhavns Philatelist Klub", together with "Filatelistisk Selskab", is organizing a National Stamp Exhibition "Filatelistisk Selskab 100 years" under the Danish Philatelic Association. This is the first national exhibition in Denmark in 3 years.

18-20 October 2019 in DGI-byen, København.

Visit our stand where you can hand in consignments for future auctions, sell for cash or just have a friendly chat.

...and in Monaco

Come and join us at MonacoPhil 2019, TERRASSES DE FONTVIEILLE, MONACO, 28-30 November.

This year MonacoPhil will pay homage to the philately of Egypt, have an exhibition of maritime postal history and also pay attention to young philatelists.

FACIT® will as usual also be represented in our stands and offer their catalogues for sale.

Welcome!

Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.

Extra scans on the web!

For every auction we publish thousands of extra scans on our website www.postiljonen.com including more or less all certificates of single items and a very large number of collections and lots are scanned in their entirety, further many others with selected pages/scans.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

More scans at cost

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

Due to time restrictions and limited availability of the lots due to ongoing viewings, we must restrict this service of making further scans on individual requests. In the cases time allows us to supply more scans we will charge for the costs of **€ 10 for each request (maximum 10 scans or photos)**

If more than 10 scans are requested, € 1 per scan will be added. **Must be paid beforehand by credit card, please go to "Payments" on our website.**

Important Information

Unused Denmark 1851 – 1862 * & **

Through debates in various philatelic press, it has been made clear that due to the hard and insoluble gum used on early Danish stamps during the years 1851 – 1862 (Facit Nos 1-8), light hinges or traces of hinges can sometimes be removed by using only water. This might not leave any trace of the hinge and might not in any way change the consistency or structure of the original gum.

Established experts are unified in the opinion that **in many cases it is impossible to determine if a stamp has previously been hinged or not**, when showing no marks of any hinge.

The conclusion we have made regarding our descriptions from now on, for Danish unused stamps **Facit Nos 1-8, is as follows:**

1. **We will no longer use the terms "NH" or "never hinged".**
2. **We will still use the signs "*" for hinged stamps with original gum.**
3. **and "***" for stamps with original gum with no visible trace of hinge(s) and described as such.**

We believe that most specialized experts also will use this "modus operandi" for these issues.

At the same time we wish to refer to the Swedish Philatelic Federation's Expert Advisory Group (Expertrådet). It has published norms of allowed methods for light cleaning of stamps and covers. These norms have been adopted also by other Nordic Federations. Reversing of light oxidation, sometimes caused by use of modern plastic, without leaving any traces is also an allowed method accepted among national and international experts.

An exceptional and very beautiful cover with Senate printing 10 penni olive brown together with 2 x 5 and 20 p., all in Senate printing perf. 11 "BJÖRNEBORG 23.3 1882". The 20 p. with figure canc. and the other stamps added due to double weight. Certs Gummesson & Murtosaari. The latter is unsure about the contents, however the contents in Swedish clearly confirm that two accounting lists were included, surely weighing too much for a single rate cover. Light archive fold through the lower stamps. *This combination is not recorded in Facit.* Ex. Gummesson. VERY FINE & RARE.

A spectacular envelope with a single 3.50 rubel "HEL-SINGFORS 15.11 00". It is absolutely commercial even if overfranked. These insured Terwakoski envelopes were pre-franked with 3.50 rubel and used for insured letters, sometimes also when the postage was less. This is explained in the certificate of Schwenson. Sign. Return Covers - Lots

The following section consists of lots containing covers and cards with return markings of every imaginable kind, such as handstamps, labels, manuscript etc. as well as various other postal labels (such as officially sealed etc.) often combined with postage due markings or postage due stamps. Most of these have to do with the re-addressing and eventually the return of the item to the sender. Most items have some connection with Germany, i.e. sent from or to Germany. Due to the nature of these items, often having been excessively handled by the post, mixed quality is to be expected.

Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.
Exception: Only 20% commission, excl. Swedish V.A.T., only for
 - a. Export to countries outside of EU.
 - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

| | |
|---|-----------|
| The bids are increased as follows: Below Euro 500,- | Euro 10,- |
| 500,---2000,- | 50,- |
| above 2000,- | ca 5% |

Bids not corresponding with these steps might be reduced.
- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone or fax. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of Euro 10,-. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
- 9, Swedish law is applicable.

Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.

1. Auktionen är frivillig och sker för inlämnarens räkning. Objekt tillfaller den köpare som avgivit högsta bud. Avgivna utropspriser är ej minimipriser men är satta så att de skall avspegla ett mycket lågt beräknat handelspris.
 2. Alla bud skall ges i Euro. Köparen skall till auktionären betala en provision på 25% på auktionspriset inkl. moms. Om objektet inte hämtas, sker leverans på köparens risk. Porto, transportförsäkring och bankavgifter / kreditkortsavgift tillkommer. Köparprovision 20% exkl. moms gäller endast i följande fall:

Instruktioner om faktureringen skall ske före eller under auktionen. Fakturor kan inte ändras efteråt.

Vid auktionen tillämpas följande fasta höjningar av buden:

| | |
|-------------------|---------------|
| under Euro 500,- | med Euro 10,- |
| 500,- till 2000,- | med 50,- |
| över 2000,- | med ca 5% |
 3. Avgivet bud är bindande och budgivaren är personligt ansvarig för samtliga av honom gjorda inrop. Annullering av bud kan ej ske, såvida den inte är oss tillhanda senast samtidigt med buden. Vid bud för annans räkning ansvarar budgivaren för att försäljningsvillkoren uppfylles, som vore det eget bud. Budgivaren är också ansvarig för av honom gjorda fel i auktionsuppdraget. Likaså vid oberoende telefon- och faxbud svarar budgivaren för ev. fel och missuppfattningar.
 4. Auktionsuppdrag behandlas så omsorgsfullt som möjligt, dock utan några andra åtaganden från auktionärens sida. Auktionären äger rätt att ej godtaga bud, samt att dra tillbaka, omgruppera eller dela objekt. Auktionären har också rätt att avvisa personer från auktionen och avböja bud utan att ange skäl härför. Han förbehåller sig rätten att vid missförstånd eller meningsskiljaktigheter utlysa ny budgivning. Vid två eller flera lika bud på samma objekt från uppdragsgivare, tillfaller objektet den som först inkommit med bud. Vid auktionsuppdrag kan reservobjekt medtagas, eller också kan den totala köpesumman begränsas till visst belopp.
 5. Betalning sker kontant, mot postförskott eller mot förskottsfaktura. Objekten förblir säljarens egendom tills full likvid erlagts. Likvid skall erläggas inom 8 dagar från fakturadatum. Vid senare betalning debiteras ränta med 2% per påbörjad månad, räknat på fakturabeloppet, samt kravavgift med Euro 10:-. Dessutom kan ytterligare kravkostnader tillkomma. Har likvid ej inkommit 30 dagar efter fakturadatum eller om köparen vägrar betala, kan objektet utan ytterligare meddelande säljas på köparens bekostnad.
 6. Objektet är omsorgsfullt beskrivna, dock kan smärre fel förekomma. Ev. reklamation måste göras senast 10 dagar efter det att objektet levererats. Vid all korrespondens bör fakturanummer anges. Vid godkänd reklamation återfår köparen auktionspris plus provision och eventuell moms. Räknetogtgörelse kan ej påräknas.
 7. Begäran om förlängd reklamationstid för att köparen önskar sända objekt för expertundersökning, måste ske omgående och inom 8 dagar efter mottagandet av objektet. Experten måste godkännas av auktionären. Auktionären kan vid reklamation kräva intyg från en opartisk, välkänd expert. Objekt med äkthetsintyg kan, om auktionären så anser befogat, och om det ursprungliga intyget är utfärdat av en godkänd expert, endast returneras om minst två opartiska och välkända experter har en avvikande mening. Defekter synliga på foto (klippning, tandning, centring, stämpling etc.) kan inte ligga till grund för reklamation. Reklamation kan ej heller ske om objekt eller märke förändrats genom någon slags behandling. Objekt innehållande fler än 3 märken kan inte returneras på grund av smärre defekter på enstaka märke. Stora objekt kan innehålla både stämplade och ostämplade märken. Samlingar, partier, massvara, kilovara etc., säljes i befintligt skick och kan inte returneras. En differens på 10-20% måste kunna accepteras av köparen.
 8. Avgivande av muntligt bud eller auktionsuppdrag innebär godkännande av ovanstående villkor.
 9. Svensk lag gäller.
- Katalognummer och -värden är hämtade ur FACIT för Norden samt MICHEL för alla andra länder och områden, om inget annat anges.
