After view

We are now very happy and relieved to have completed this postponed auction under the current circumstances with the ongoing covid-19 pandemic. It also concluded our first 50 years of auctions and in many ways became a unique event. It was the first time ever that we postponed an auction and totally rearranged the schedule including the addition of one auction day.

In spite of our previous resistance to live-bidding by internet we now felt that we had no choice. We have always been proud of our “personal auction room” and the social aspect of our auction weekends. But these days are not like anything we have ever experienced and we are very pleased that we decided to introduce this modern way of auction participation. As everything indicates that the corona virus will stay with us for some time and as many might be hesitant to travel we have already decided to continue with live-bidding also at the next auction.

We had about 350 registered live bidders all around the globe, but even though not everyone participated, the active ones were absolutely crucial for the total auction result. We note some remarkable prices for certain items in the auction’s initial section of “Footpost from Copenhagen” followed by the Danish areas where the Danish West Indies stood out, not least the cover with the triple combination. The unique 2 RBS block was won by one of the few auction room participants in a fierce fight with an internet bidder. But above all we have to mention the vast and intense bidding for collections & accumulations in general! We can now confirm what has been said, quarantined philatelists need stamps to keep themselves busy.

Due to all cancelled and postponed exhibitions, especially London 2020 during this remarkable spring we are now keeping our fingers crossed for Nordia 2020 the first weekend in September. Hopefully this will be the exhibition restart that we have been waiting for.

Enjoy the approaching summer and stay healthy!
