Unique 4 RBS Ferslew 1¹ Plate I*Did you know?*

The first printing of 4 RBS, the first Danish stamp, was made in a rush to fulfil the commitment of delivery before April 1 1851. The printing was made by Ferslew in double sheets of 2 x 100 each, using two plates. The first printing of 4 RBS was not plentiful and it was soon apparent that retouches of many clichés were necessary.

This made it possible to afterwards separate the positions of the so called Ferslew 1¹ in the first printing. They are rare and especially so in unused condition, only 15-20 copies are known to exist. All these unused copies, except one, originate from plate II and it has become evident that they are also from the same sheet.

They are all in a distinct dark violet brown shade including the unique pair with the “Kranhold Retouch”.

It is obvious that for some reason a sheet or a very large block was kept aside somewhere, perhaps by the post or the printer for reference. It is most likely that all other available stamps were delivered to the post offices in time for the premiere on April 1, 1851 and thus being used.

From plate I only one unused copy has emerged so far and recent studies have concluded that no other copies are recorded anywhere.

Preface

Unfortunately it is not just the ongoing corona pandemic that is turning the world “upside down” at the moment. We are also experiencing what Swedes call a “wolf winter”. Temperatures below zero degrees Celsius in Florida and Hawaii, a snowstorm in Madrid and as low as -25 °C northeast of the capital and national ice days in Sweden, below zero all over the country.

However, philatelists are fortunate, we do not need to go outside as we can stay at home enjoying our collections. And why not dream away to an exotic place like Bechuanaland or Tonga & Niuafoou Islands? That is exactly what you can do in this catalogue and we are happy to guide you on the second trip “Around the World in 80 Collections”; choose your destination and fasten your seatbelt! Please also take a moment to enjoy perhaps the most beautiful classic stamp issue in the world, the Basel Dove.

Leaving our dreams behind and returning to reality, in our “neighborhood” we have fantastic sections from the Danish areas this time. From the Faroe Islands, we offer the earliest letter to the Faroes as well as the earliest letter from abroad, two unique postal history rarities! In the Greenland section, we continue with part 2 of the fascinating “Norsemen Collection”.

The last day is almost entirely devoted to the Swedish section. In addition to a large selection of beautiful and rare Skilling Banco items you will throughout the section find a lot of stamps in the highest quality grade “5,5,5”. We are very proud to have been entrusted the sale of Mats Gustafsson’s Gold Collection Large Official

Stamps. Mats was awarded Postiljonen’s challenge trophy “The Silver Postiljon” in 1992, and is a longtime dear friend to us all.

As a “follow-up” to the series of seven magnificent Gummesson auctions, entrusted us during the last five years, we are very happy to present Terttu Österman’s Large Gold Collection of Finland in a separate catalogue #231. A collection and exhibit of the highest level, which has been untouched for more than twenty years. The most beautiful item is perhaps the tête-bêche pair of 10 Kopek with original gum, once part of a block of six earlier owned by the famous philatelist Agathon Fabergé.

We are fully aware that travelling is not what you prioritize in these days, but in case the opportunity should arise, we welcome you and are ready to serve you in accordance with the Swedish as well as international pandemic regulations and recommendations.

“Postiljonen Horses”

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

Extra scans on the web!

For every auction we publish thousands of extra scans on our website www.postiljonen.com including more or less all certificates of single items and a very large number of collections and lots are scanned in their entirety, further many others with selected pages/scans.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

More scans at cost

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

Due to time restrictions and limited availability of the lots due to ongoing viewings, we must restrict this service of making further scans on individual requests. In the cases time allows us to supply more scans we will charge for the costs of **€ 10 for each request (maximum 10 scans or photos)**

If more than 10 scans are requested, € 1 per scan will be added. **Must be paid beforehand by credit card, please go to "Payments" on our website.**

Welcome!

Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.

Around the World in 80 Collections Second Round!

After the success in the previous auction with collections from almost every corner of the world, we have had a lot of interest from other collectors as well as one of the main consignors from last time to join in on a second round of this exciting trip.

Therefore we are happy to once again present a fantastic selection of collections from all continents, some very extensive country collections as well as some highly specialized ones. In many cases the collections start with the first issues and stop already around the 1940s to 1960s. To a large extent they have been put together and developed for many decades by eager collectors in our Nordic region. A quite common denominator is that they have been rather quality minded and tried to avoid “cheap space fillers”.

Among all these important country collections, as well as some spanning over wider areas, there should hopefully be something for everybody’s taste. Most of them would be excellent starting points for collectors, who would like to further develop and possibly complete them.

All the collections are found under their respective countries or areas in different parts of this catalogue. The starting prices have been set conservatively to give good room for bidding, hopefully making this auction an interesting and exciting event.

The quality is generally very high and there are also some exquisite specialized early collections. Careful inspection is recommended, however as many of our clients might be limiting their travelling, we have tried to scan the absolute majority (at least in terms of value) of the collections and in many cases all pages. You will find the scans in our web catalogue, where it will be mentioned at the end of each description in red, either “Entire lot scanned” or “Part of lot scanned”.

Happy hunting!

Important Information

Unused Denmark 1851 – 1862 * & **

Through debates in various philatelic press, it has been made clear that due to the hard and insoluble gum used on early Danish stamps during the years 1851 – 1862 (Facit Nos 1-8), light hinges or traces of hinges can sometimes be removed by using only water. This might not leave any trace of the hinge and might not in any way change the consistency or structure of the original gum.

Established experts are unified in the opinion that **in many cases it is impossible to determine if a stamp has previously been hinged or not**, when showing no marks of any hinge.

The conclusion we have made regarding our descriptions from now on, for Danish unused stamps **Facit Nos 1-8, is as follows:**

1. We will no longer use the terms “NH” or “never hinged”.
2. We will still use the signs “*” for hinged stamps with original gum.
3. and “**” for stamps with original gum with no visible trace of hinge(s) and described as such.

We believe that most specialized experts also will use this “modus operandi” for these issues.

At the same time we wish to refer to the Swedish Philatelic Federation’s Expert Advisory Group (Expertrådet). It has published norms of allowed methods for light cleaning of stamps and covers. These norms have been adopted also by other Nordic Federations. Reversing of light oxidation, sometimes caused by use of modern plastic, without leaving any traces is also an allowed method accepted among national and international experts.

Greenland

"The Norsemen Collection" of PAKKE-PORTO Part 2

We are happy to present the second and final part of this outstanding collection Greenland, specialized in only the Parcel Post stamps "PAKKE-PORTO" 1905 - 1937.

The collection has been built and developed during a 20-year period by a collector with the intention to exhibit, which for various reasons did not happen. With its rich spectrum of varieties, printings, plate positions and not least with the extensive variety of parcel cards, the collection surely had the potential to reach the highest levels in competition.

When looking through the items, it will be obvious to anyone that the collector was very astute and quality minded, putting a high priority on getting exquisite stamps and rare as well as beautiful postal history items.

Please enjoy!

Unique Proof for Perforation 13

Lot # 1103

A very interesting proof, the only one made for perf. 13. It was not needed for the other values, as the 1 krona denomination was the only one not existing in perf. 14. With unprinted circle, the same as the 1 riksdaler essay from 1870. The proof was cancelled by cutting it in three parts, but afterwards glued on a piece of paper. Interesting article from Nordisk Filатели 1996, when it was found, is enclosed. Cert. Obermüller Wilén.

Mats Gustafsson

Large Official Stamps 1874 – 1910

At the exhibition "WEXIÖ 650" in 1992 Mats was awarded The Silver Postiljon "SilverPostiljonen", the challenge trophy that Postiljonen instituted in 1977, which at the time was awarded to the best exhibit in all competition classes at national exhibitions. Here receiving the trophy from the previous winner Börje Wallberg.

We are very proud and happy to have been entrusted this extraordinary holding, a lifelong achievement that was crowned by Gold Medals and not least by the handbook "Tjänstefrimärken i stort format 1874 – 1910" published in 1991 and still considered the most important work in this field.

Mats built his collections from the 1970s up to the 1990s and he was a keen exhibitor not only for the main collection that received the highest medals, but also for others in the field of official stamps, such as the postal history of the issues, postal stationery as well as the issues of Small Official stamps.

Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.
Exception: Only 20% commission, excl. Swedish V.A.T., only for
 - a. Export to countries outside of EU.
 - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

0 – 200€ 10€	1.000 – 3.000€ 100€	10.000 – 30.000€ 1.000€
200 – 500€ 20€	3.000 – 5.000€ 200€	30.000 – 100.000€ 2.000€
500 – 1.000€ 50€	5.000 – 10.000€ 500€	100.000€ – 5.000€

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone, fax or through internet live-bidding. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of 10€. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
- 9, Swedish law is applicable.

Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.

1. Auktionen är frivillig och sker för inlämnarens räkning. Objekt tillfaller den köpare som avgivit högsta bud. Angivna utropspriser är ej minimipriser men är satta så att de skall avspegla ett mycket lågt beräknat handelspris.
 2. Alla bud skall ges i Euro. Köparen skall till auktionären betala en provision på 25% på auktionspriset inkl. moms. Om objektet inte hämtas, sker leverans på köparens risk. Porto, transportförsäkring och bankavgifter/kreditkortsavgift tillkommer. Köparprovision 20% exkl. moms gäller endast i följande fall:

Instruktioner om faktureringen skall ske före eller under auktionen. Fakturor kan inte ändras efteråt.

Vid auktionen tillämpas följande fasta höjningar av buden:

under Euro 500,-	med Euro 10,-
500,- till 2000,-	med 50,-
över 2000,-	med ca 5%
 3. Avgivet bud är bindande och budgivaren är personligt ansvarig för samtliga av honom gjorda inrop. Annullering av bud kan ej ske, såvida den inte är oss tillhanda senast samtidigt med buden. Vid bud för annans räkning ansvarar budgivaren för att försäljningsvillkoren uppfylles, som vore det eget bud. Budgivaren är också ansvarig för av honom gjorda fel i auktionsuppdraget. Likaså vid oбекräftade telefon- och faxbud svarar budgivaren för ev. fel och missuppfattningar.
 4. Auktionsuppdrag behandlas så omsorgsfullt som möjligt, dock utan några andra åtaganden från auktionärens sida. Auktionären äger rätt att ej godtaga bud, samt att dra tillbaka, omgruppera eller dela objekt. Auktionären har också rätt att avvisa personer från auktionen och avböja bud utan att ange skäl härför. Han förbehåller sig rätten att vid missförstånd eller meningsskiljaktigheter utlysa ny budgivning. Vid två eller flera lika bud på samma objekt från uppdragsgivare, tillfaller objektet den som först inkommit med bud. Vid auktionsuppdrag kan reservobjekt medtagas, eller också kan den totala köpesumman begränsas till visst belopp.
 5. Betalning sker kontant, mot postförskott eller mot förskottsfaktura. Objekten förblir säljarens egendom tills full likvid erlagts. Likvid skall erläggas inom 8 dagar från fakturadatum. Vid senare betalning debiteras ränta med 2% per påbörjad månad, räknat på fakturabeloppet, samt kravavgift med Euro 10,-. Dessutom kan ytterligare kravkostnader tillkomma. Har likvid ej inkommit 30 dagar efter fakturadatum eller om köparen vägrar betala, kan objekten utan ytterligare meddelande säljas på köparens bekostnad.
 6. Objektet är omsorgsfullt beskrivna, dock kan smärre fel förekomma. Ev. reklamation måste göras senast 10 dagar efter det att objektet levererats. Vid all korrespondens bör fakturanummer anges. Vid godkänd reklamation återfår köparen auktionspris plus provision och eventuell moms. Råntegottgörelse kan ej påräknas.
 7. Begäran om förlängd reklamationstid för att köparen önskar sända objekt för expertundersökning, måste ske omgående och inom 8 dagar efter mottagandet av objektet. Experten måste godkännas av auktionären. Auktionären kan vid reklamation kräva intyg från en opartisk, välkänd expert. Objekt med äkthetsintyg kan, om auktionären så anser befogat, och om det ursprungliga intyget är utfärdat av en godkänd expert, endast returneras om minst två opartiska och välkända experter har en avvikande mening. Defekter synliga på foto (klippling, tändning, centrering, stämpling etc.) kan inte ligga till grund för reklamation. Reklamation kan ej heller ske om objekt eller märke förändrats genom någon slags behandling. Objekt innehållande fler än 3 märken kan inte returneras på grund av smärre defekter på enstaka märke. Stora objekt kan innehålla både stämplade och ostämplade märken. Samlingar, partier, massvara, kilovara etc., säljes i befintligt skick och kan inte returneras. En differens på 10–20% måste kunna accepteras av köparen.
 8. Avgivande av muntligt bud eller auktionsuppdrag innebär godkännande av ovanstående villkor.
 9. Svensk lag gäller.
