## Double Silk Threads

*Did you know?*

The security features for the production of the first Schleswig-Holstein issue were exceptionally strict compared to many other countries. The printing process was done in three stages: 1, burelage of the Prussian eagle. 2, the main design. 3, the colourless embossed centrepiece.

Besides, the paper was produced by John Dickinson & Co, Ltd, England, a paper maker specialising in security papers, largely used by the British Post, also for the embossed issue 1847 with silk threads similar to the ones used for Schleswig-Holstein. These specialised papers were produced under strict control and production faults were very rarely seen.

At least one mistake is proven by this 1 schilling stamp with two silk threads. Obviously, in one vertical row of eight stamps, one extra silk thread was added. This error has been noted in Michel for many years, without price. As acknowledged experts had never seen this error before during their long careers, they started questioning the existence of such a variety, but it has now been confirmed.

If this is one of only eight copies produced, it is quite viable to presume that it is the only one existing today, based on the survival rate for classic stamps, which is normally estimated to be in the area of 7-12 %.

## Preface

In our hometown, Malmö, we have for the first time in several years experienced a cold and real winter with snow, sledding, snowman building and ice skating. Most kids loved it, but not all adults have been as enthusiastic. This was soon a thing of the past and spring is approaching, but 15 February is the earliest possible date for the arrival of our meteorological spring.

In our business/hobby we are happy to experience “spring” all year round, we don’t have to consider a specific date to get “spring feelings”! At least that is how we in our team feel. For example, we are very happy and proud to once again have been entrusted several “Name-sales” from faithful clients and old friends. These raise the level and status of our auction, we hereby thank them all for their trust and contribution.

This four-day auction begins traditionally with the non-Scandinavian countries. As lot # 104 you will find a very interesting variety, double vertical silk threads, which you can learn more about by reading “Did you know?” Under the heading German Colonies we present several interesting covers from Cameroon, and in Great Britain a rare and interesting letter sheet with one penny black, plate 11. Some pages onwards there is a presentation of Dr. Ulf Sjögren’s Nova Scotia & New Brunswick collections.

The Scandinavian part starts with Denmark including the beginning of Gordon Hughmark’s Scandinavia collection. The Danish section includes many scarce and unique items as usual, just to mention one we will emphasize the Footpost cover with a beautiful pair of 2 RBS Ferslew. Further on you will find “The Virginia Collection” part 2 and our close friend Niels Schou’s collection Denmark 1851-1870 offered untouched.

On the third day the remaining Scandinavian countries will come up for sale. As at our most recent auctions, Greenland and Danish West Indies are again very well represented, the market and demand for both areas are very strong. This day will end with Iceland and two interesting name-sales “The Orla Nielsen Collection” and Professor Hans Ringertz official covers.

As is often the case, we save the best for last! The gold-awarded collection Sweden 1855-1872, built by our very good friend Stefan Bielkhammar, known as “The Beautiful Collection”, is presented in its own catalogue # 241. The Swedish section in the general catalogue is somewhat smaller this time, but as usual in high quality including many items graded 5,5,5.

We wish you most welcome to the viewing as well as to visit the auction room!

## Live Bidding

---

### *Take part in the Postiljonen Auction from your home!*

Postiljonen now offers the choice of Live Bidding for all clients. This means you can bid on items in real-time during the auction, from your home at your computer, just as if you were in the auction room.

In order to participate as a Live Bidder in the auction you must have an account for the Postiljonen web catalogue. If you have previously submitted written bids through the web catalogue you already have an account, otherwise you can create an account at [www.postiljonen.com](http://www.postiljonen.com)

In order to be approved to bid live during the auction, you must also register as a Live Bidder and be assigned a bidder number. **This must be done before every auction.**

Once you have registered you will receive an email confirming that your request have been sent, but it is only when you receive a second email from us, where we have assigned you a bidder number, that you are ready to start bidding live.

If you have any questions or concerns, do not hesitate to contact us! More information is also available at [www.postiljonen.com](http://www.postiljonen.com)

## Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

**To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.**

## Extra scans on the web!

For every auction we publish thousands of extra scans on our website [www.postiljonen.com](http://www.postiljonen.com) including more or less all certificates of single items and a very large number of collections and lots are scanned in their entirety, further many others with selected pages/scans.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

### More scans at cost

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

Due to time restrictions and limited availability of the lots due to ongoing viewings, we must restrict this service of making further scans on individual requests. In the cases time allows us to supply more scans we will charge for the costs of **€ 10 for each request (maximum 10 scans or photos)**

If more than 10 scans are requested, € 1 per scan will be added. **Must be paid beforehand by credit card, please go to "Payments" on our website.**

## *"Postiljonen Horses"*

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

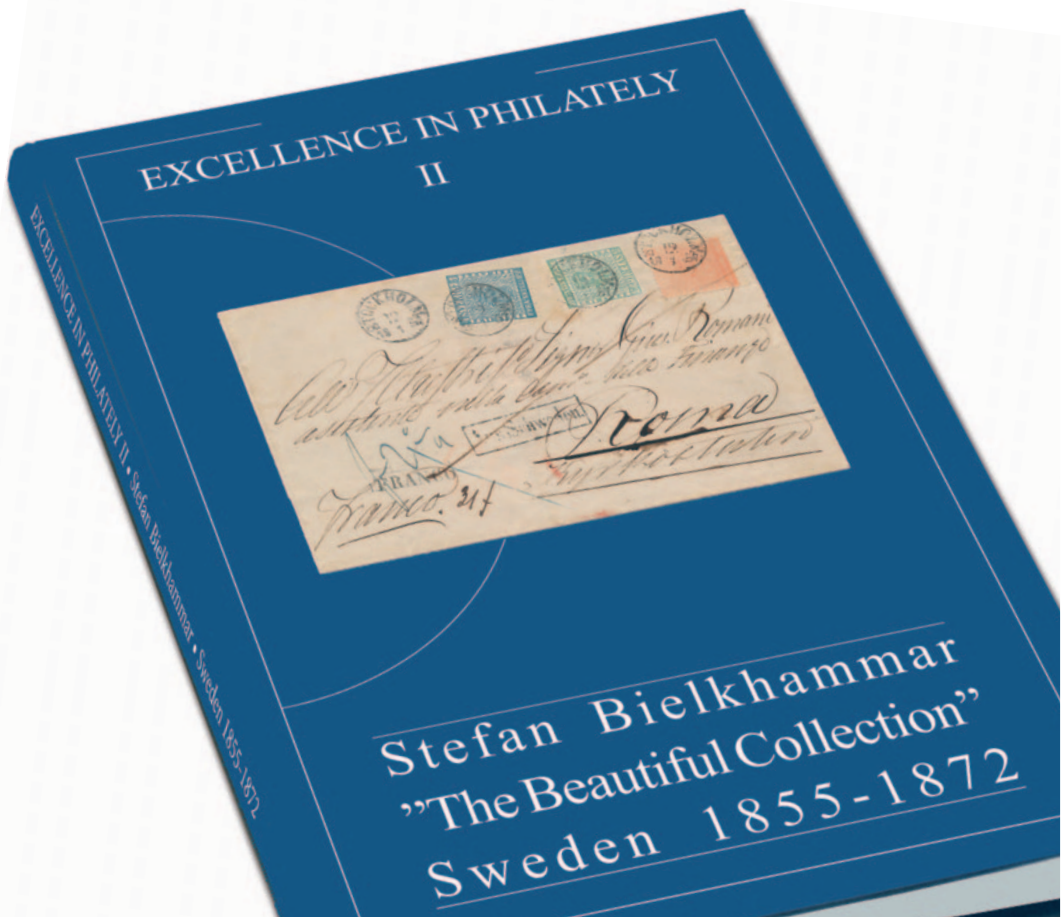

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

## Double Silk Threads

Lot # 104   
1aI \*

Number one, 1 schilling with variety: *double vertical silk threads*. This stamp is from position 12 in the sheet of 80 stamps. The variety has been noted in Michel for many years, though numerous collectors have questioned its existence. The degree of rarity can be explained by the position in the sheet, indicating that originally 8 stamps in the second vertical row got the double silk thread. Based on the normal survival rate of classic stamps, the other seven copies are probably lost, making this the only one still existing. *Unpriced in Michel*. Cert. Møller.

## Dr. Ulf Sjögren

### Nova Scotia & New Brunswick Collections

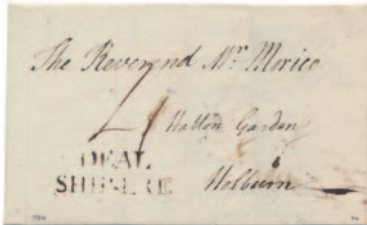

Already in 1972 the beautiful stamps from the first issue of Nova Scotia intrigued Ulf. This got him started buying interesting and beautiful items and he slowly continued to add carefully selected stamps and covers. Especially beautiful covers attracted him and during the years he acquired many rare and important ones, including some from famous exhibition collections.

At this point, the collection is at a very high level and could easily have been developed into an important exhibition collection.

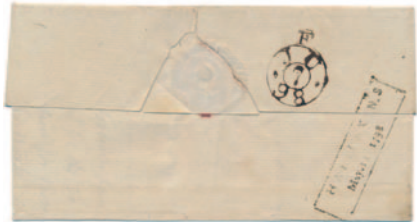

While collecting Nova Scotia, Ulf could not resist occasionally buying some nice items from the "sister state" New Brunswick. These items will also be offered at this auction.

Thank you Ulf for choosing Postiljonen as auctioneer when disposing of this eminent collection, it is with great pride we present it to our clientele.

We hope you all will enjoy studying this exclusive selection of British North American classic philately.

## “Postiljonen Horses”

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

### The Gordon Hughmark Collection of Scandinavia

Gordon's lifelong passion with Scandinavia began early in his professional career. Though settling in the southern United States, he rather enjoyed traveling to more temperate regions of the globe. Working for Ethyl corporation, he traveled to Hong Kong, Australia, Indonesia, the Middle East, and to many European countries.

The paternal side of his family emigrated from Sweden to the United States at the turn of the 19th century. The interest in his family's heritage is one motivation for Gordon's love of Scandinavian stamps and postal history. Gordon learned several languages so he could correspond with knowledgeable collectors of Scandinavian material, learning from them and performing his own original research. After retirement, Gordon enjoyed river and coastal cruises that allowed him to see the culture and countryside of Europe while imagining the post riders along these routes.

Gordon collected all Scandinavia with special emphasis on Sweden and Iceland. You will find his items and collections in order under each country. They can be identified, as all are marked "Ex. Hughmark" in the descriptions.

We thank the family of Gordon for entrusting us to present and offer his achievements in philately to our clientele.

# “The Virginia Collection”

## Part 2

*At the September auction last year, we auctioned the exceptional collection of “Denmark during 150 years, mint stamps 1851-2001”, built during more than half a century by an American couple from California who went to work in Risø in Denmark 1958. There they spent almost one year as the husband was in charge of the initial start-up and testing of one of the nuclear reactors built on the site.*

*The visit to a stamp dealer in Copenhagen was the start of this fantastic collection as well as some “side collections” of Greenland, specialized Denmark Bicoloured and Official stamps. For this auction we are happy to have been entrusted these as well as various remainder lots.*

*We thank the family for their continued confidence choosing us as auctioneer.*

*You will find these auction lots under their various headlines, all items, collections and lots are marked “Ex. Virginia” at the end of the descriptions.*

*Please enjoy!*

# The Orla Nielsen Collection

*Introduction by Ebbe Eldrup*

After a long and active life Orla Nielsen passed away peacefully in his home on June 29th, 2023, just 22 days before he would have turned 90 years old. Orla used to be an associate professor at Copenhagen Business School (CBS), Institute of Marketing and Center of Market Economics. He was associated with CBS from 1962 to 2003.

Orla started collecting stamps in his late thirties and collected Iceland since 1973. He was a co-founder of the Iceland Study group in Denmark in 1977 and later also very active in the Danish Iceland Collectors Club that was founded in 1987. Orla reached 50 years membership of Copenhagen Philatelist Club (KPK) in 2022 and was a member of the local club in Taastrup for many years as well as a member of the Philatelic Society, Denmark, since 1988.

Orla was a dedicated philatelist. He has described and published platings of the 5, 6, 10, 16 and 20 aur Numeral of Value stamps from Iceland as well as many other philatelic discoveries. Much of the work Henry Regeling published about the Numeral of Value Issue from 1873-1901 was Orla's findings.

Orla exhibited his collection, Iceland – Postage and official stamps (1870-1907), several times and ended up with an International Gold medal, 90 points, at Nordia 2012 in Denmark, followed by 91 points, International Gold and Grand Prix National, at Nordia 2013 in Iceland. He was very happy and proud of this result, which was well deserved indeed.

This exhibit of classic Icelandic stamps is one in which more than 60% of the stamps are plated and in most cases allocated to a position in the sheet. All varieties are identified. Nobody had done that before or since. The exhibit furthermore comprised rare covers and proofs as well as rare Í GILDI and Christian IX.

Orla also formed traditional collections of Icelandic stamps from 1907 and all the way up to 2009. These collections are all mounted and comprise nearly all known varieties as well as rare postmarks including fine and rare covers with the stamps shown. This Orla kept for himself, but it is a most extraordinary material that is very rarely seen.

# Professor Hans Ringertz Iceland Official Covers

## Part 1

*Hans Ringertz, MD, PhD, Jub.Dr., FACR(Hon), FRCR(Hon), F.F.R.RCSI, FHKCR(Hon), Professor Emeritus, Karolinska Institutet, Stockholm & Professor Emeritus, Stanford University, California, has had an extremely impressive professional career.*

Here we would like to focus on his philatelic achievements, which he also found time to pursue very successfully, despite his busy professional schedule.

His interest in Icelandic philately arose when he was a boy in the 1940s and flourished in the 1960s, when he joined the Iceland Collectors (Islandssamlarna), of the Stockholm section. At that time, this society had very active sections in Stockholm, Gothenburg and Copenhagen. Already from the beginning he liked official stamps and soon started building this impressive collection of official covers.

Most official covers are very scarce and many are rarities. Especially the classic ones, many of the aurar values exist only in one or a few covers each. Some values are not even known on covers. Most of these classic covers, not offered here, are locked up in important exhibition collections.

Official covers with later issues are also scarcely seen on the market, which explains why this collection took more than fifty years to build. It is absolutely outstanding in terms of contents and variety including many great rarities, and in some cases unique ones. Most of them have not been on the market for decades!

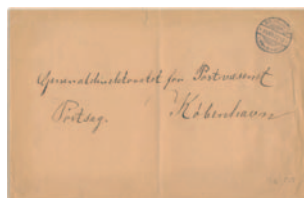

Please, explore and enjoy!

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.  
Exception: Only 20% commission, excl. Swedish V.A.T., only for
  - a. Export to countries outside of EU.
  - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

0 – 200€ 10€	1.000 – 3.000€ 100€	10.000 – 30.000€ 1.000€
200 – 500€ 20€	3.000 – 5.000€ 200€	30.000 – 100.000€ 2.000€
500 – 1.000€ 50€	5.000 – 10.000€ 500€	100.000€ – 5.000€

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone, fax or through internet live-bidding. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of 10€. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
- 9, Swedish law is applicable.

Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.
